ABSTRACT

Tables of statistical data compiled for Ohio public and academic libraries are presented. Following a summary by county of intangibles tax collection and distribution, counties are ranked by percentage of intangibles tax distributed to libraries and by per capita income of libraries. Public libraries are ranked by circulation, volumes added, total volumes, total operating expenses, and salary expenditures. In addition, there are tables of general statistics for public and academic libraries which cover population, hours, staff, circulation, collections, income, and expenditures. (LS)
